KYRGYZ REPUBLIC: CONSULTANT FOR GENDER ANALYSIS AND GENDER ACTION PLAN

INTRODUCTION TO GGGI

The Global Green Growth Institute (GGGI) is a treaty-based international, inter-governmental organization dedicated to supporting and promoting strong, inclusive and sustainable economic growth in developing countries and emerging economies. To learn more please visit [about GGGI \(https://gggi.org/about/\)](https://gggi.org/about/) web page.

GENERAL INFORMATION

- Project: Strengthening Climate Resilience through the Introduction of Innovative Smart Techniques in Flood and Drought Management in Central Asia
- Duty Station: Bishkek, Kyrgyz Republic
- Contract Duration: 09.2024 ~ 02.2025 (5 months)
- Consultant Level: Individual Consultant 3
- Total Fees: USD 9,000
- ** The consultant should be a Kyrgyz national or a foreign national who can work and reside in the Kyrgyz Republic with a valid visa

PROJECT BACKGROUND

GGGI has a diverse portfolio of programs in developing countries around the world. These in-country programs, together with global products and services, focus on delivering results through an integrated approach of evidence-based green growth planning and implementation aligned to countries' development priorities. The organization also focuses on knowledge development and

management activities which build a strong theoretical and empirical basis for green growth, while providing concrete options and guidance for policymakers; as well as building the conditions for public and private green infrastructure investments.

GGGI signed a grant agreement with the Ministry of Environment of the Republic of Korea, for the first projects in the GGGI Kyrgyzstan office titled "Strengthening Climate Resilience through the

Implementation of Climate Resilient Small-Scale Irrigation, Flood and Drought Management in Central Asia" (the "Project"), which will focus on landslide and flood prevention measures.

As part of the important value addition, GGGI Kyrgyz Republic has undertaken to include and integrate a strong and innovative gender and social inclusion component into the project implementation. The vulnerable women and men will be engaged in the development of regional climate resilient and green growth assessment on water-related disaster risk and flood management. Adding to this, gender specific risks will be identified, and gender action will be developed to address these risks.

The needs of women will be taken into consideration in the design and delivery of the training and capacity building activities of the project.

OBJECTIVES OF THE ASSIGNMENT

In collaboration with the GGGI staff in the country of the Republic of Kyrgyz, the national consultant within the country team will support the development and design of various gender action and strategies focused on climate resilience, climate risk-vulnerability and flood and drought management. The position carries out analytical work related to his/her technical expertise and provides a wide range of contributions in support of delivery of gender-related components in the country project/program.

Especially, for the development of the Gender Analysis, Gender Strategy and Gender Action Plan, the consultant shall provide and develop the information on gender related roles, rights, responsibilities and relations in the local context of the project sites in Talas-Alatau and Ferghana ranges in Kyrgyz Republic and Uzbekistan.

DELIVERABLES AND PAYMENT SCHEDULE

Within the duration of the assignment, the consultant is expected to undertake a Gender Analysis, Gender Strategy and Gender Action Plan in order to effectively mainstream gender into the implementation of the project. Specifically, under the direct guidance of the Project Manager and in close collaboration with GGGI's experts, the consultant will assume the following tasks and deliverables in the table below:
